SUMMARY

I am a Computer Science student in Poland, driven by my passion for technology and software development. I consider myself an open-minded and creative individual with strong communication and interpersonal skills. I am confident I excel in adapting to new challenges, which, combined with my love for learning and problem-solving, makes me well-suited for a career in programming and design. I'm enthusiastic about pursuing a career in software development and continually seek opportunities to enhance my programming skills.
